Second Biennial GPLN Georgia Poultry Vaccination Survey

February 2019

Compiled by the Georgia Poultry Laboratory Network

GPLN does a vaccination survey every 2-3 years. In the early 1990s, Select Laboratories published a yearly vaccination survey for all US poultry. Although this one no longer exists, the idea was borrowed to produce this document. It represents a “snapshot” of the vaccine types and vaccination strategies used at one moment in time, in this case February of 2019. The differences in vaccine use from one survey to the next are particularly interesting. Comments are included on several pages of the booklet to highlight some of those differences.

If you have not received a survey booklet and would like to, please contact Bethany Coggin at bcoggin@gapoultrylab.org or Len Chappell at lechappell@gapoultrylab.org.

Enjoy!

TOURS, VISITORS, & COMMUNITY OUTREACH

- JUNE 3RD: GEORGIA 4-H LEADERSHIP
- JUNE 3-21ST: INTERN ALEXANDRA RIVERA
- JUNE 6TH: UNITED KINGDOM DEPARTMENT FOR INTERNATIONAL TRADE
- JUNE 6TH: STUDENTS FROM LANIER TECHNICAL COLLEGE
- JUNE 10-14TH: INTERN PAIGE CHRISTIANA
- JUNE 17TH: RISING 9TH GRADERS FROM GAINESVILLE CITY SCHOOL SYSTEM
- JUNE 17TH: BV SCIENCE
- JUNE 26TH: DURATIONAL CAPITAL MANAGEMENT
- JUNE 27TH: OK FOODS

OTHER ACTIVITIES

- JUNE 13TH: 2019 NPIP MEETING
- JUNE 26-30TH: EMERALD COAST VETERINARY CONFERENCE

John Dickerson, Dave Zacek, and Martin Cardaci with BV Science toured the lab.

Above:
Georgia 4-H Leadership toured the lab along with Mr. Massey.

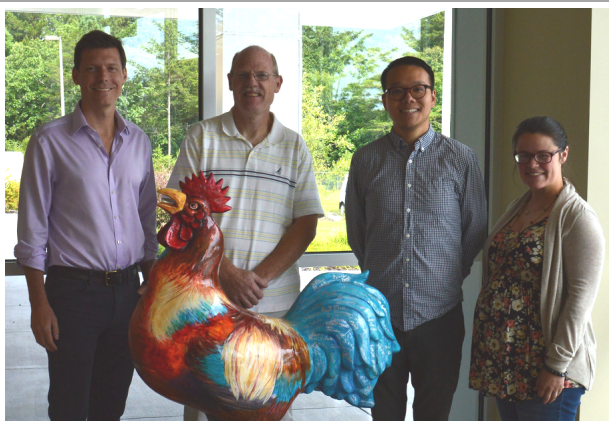

Right:
Interns, Alexandra Rivera and Paige Christiana, pose for a picture in our necropsy lab with our very own Adriana Guzman.

Rising 9th graders from the Gainesville City School System stopped by to tour the lab during their summer break.

Lanier Technical students and teachers before touring the lab.

The new owner of Bojangles, Matthew Bradshaw, the Durational Capital Management founder, and his Vice President Norman Yu toured the lab to learn more about the poultry industry.
