Trends in GA Broiler Breeder Vaccination Programs Over Time

	2016	2019	2021
Use of Marek's Recombinant vaccines in pullets	34%	48%	45%
Use of <u>Rispens</u> in pullets	53%	40%	82%
Use of IBD Recombinant vaccines in pullets	9%	42%	46%
Use of Pox Recombinant vaccines in pullets	32%	31%	19%
Use of LT Recombinant vaccines in pullets	47%	39%	19%
Most popular Fowl Cholera Vaccine strategy	2 live vaccines	1 inactivated followed by 1 live vaccine	Both programs mentioned are equally popular
Most popular Salmonella Vaccine strategy	2 live vaccines followed by 2 inactivated vaccines	Same	Same

Dr. Krista Surles, Dr. Thomas Beacorn, our new Area Veterinarian in Charge for Georgia, and Dr. Freddrianna McElveen with USDA visited the lab September 30th for a meeting and tour with Dr. Zavala.

Rita Harkness, QC with Perdue, toured the lab this September.

We regretfully inform you that we will not be hosting the Annual Meeting in person this year.

Patrick O'Haver and Rafael Correa visited the lab September 15th, and were on a guided tour led by Jeff Spivey.
