Suzanne Altman, with the Georgia Poultry Federation, organized a tour for graduating Gainesville High School students to expose them to all the career opportunities available within the poultry industry.

A Central American delegation comprised of visitors from El Salvador, Honduras, and Nicaragua toured the lab with Dr. Zavala this March.

Dr. Purvis brought her UNG Poultry Science class by the lab for a tour.

We were happy to tour and answer all the questions from the ladies of the Lanier Women's Club.

Dr. Fairchild brought Kristin Miles, MS graduate student working with both him and Mike Czarick by the lab for a tour.

We have so enjoyed having both Lauren Sartor and Skylar Lindsey, both 3rd year vet students, intern at the lab this March.

Dr. Held with Auburn brought his Applied Biotechnology majors to our Gainesville lab to learn more about diagnostics and problem solving as applicable to the poultry industry.

Johnson High School's Chemistry Class toured the lab on March 30th.
